Description

Used Grasso RC 311 compressor set

Used Grasso RC 311 reciprocating compressor unit. Equipped with a MEZ Frenstát electric motor with 102 kW and 1480 RPM. A non-return valve, an oil separator, pressure gauges and pressure safety switches. The cooling capacity is based on a different electromotor. The electromotor can be delivered in different capacity versions.

*Why choose for HOSBV? We're not only the largest used refrigeration specialist in Europe, but also, we solely deliver our orders after performing an extensive test after the product has been cleaned in an industrial manner.

*If requested we are happy to arrange your logistics.
