

2: The condenser with accessories.

2.1 An air-cooled condenser.

Manufacturer:	Güntner.	
Type:	AGVH 082B/2x5-N(D).	
Condenser capacity:	545	kW.
Air temperature:	30 °C.	
Condensing temperature:	+40.3	°C.
Air volume:	193,100	m ³ /h.
Fan motors:	10x2.0	kW.
Sound level at 10 m.:	60	dB(A).
Length:	8,500	mm.
Width:	2,385	mm.
Height:	1,550	mm.
Operating weight:	approx. 2,700	kg.

- Slats in sea\water resistant version.

2.2 Condenser accessories.

- Motor controlled valve in central compressed gas line (Korn\vestheim).
- Pressure sensor before and after the control valve, mounted after a shut-off valve.
- Manual valves and one vent valve per section.
- PT 100 element in the open air.
- Electronic speed controller for fan control.
