USE

CIATCOOLER LC

Air cooled water chillers **CIATCOOLER LC** with CIAT fan coil units, air handling units and chilled water cassette allow to answer to any air conditioning applications and industrial process.

These compact and packaged units are designed for outdoor installation with high external air temperature operation.

CIATCOOLER LCT

These units are equipped with recovery water condenser for hot water heating supply.

This design is very interesting for chillers running all the year and allows to save energy.

CIATCOOLER LCH

Air cooled water chillers **CIATCOOLER LCH** are designed with integrated hydraulic equipment (buffer, tank, expansion vessel, hydraulic pump, valves, ...).

This design allows an easy installation, a space saving and a time saving for installation.

A large selection of pumps is available for any head pressure.

RANGE

CIATCOOLER LC - LCT - LCH

8 models : 1203Z - 1400Z - 1600Z - 1803Z - 1804Z - 2000Z - 2200Z - 2400Z

■ CONFIGURATION

a - **STANDARD** version - ventilation 905 rpm

b - **LOW NOISE** version - ventilation 715 rpm+ compressors phonic insulation

■ Unit conforms norms :
EN60-204 – EN 378-2

■ Unit conforms directives :

– 98/37 CEE

– CEM (89/336 CEE) modified 92/31 CEE - 93/68 CEE

– Basse tension (73/23 CEE) modified 93/68 CEE

– DESP 97/23/CE

Group 3 models LC-LCH 1203Z to 2400Z / LCT 1203Z

Group 4 models LCT 1400Z to 2400Z

DESCRIPTION

CIATCOOLER LC

■ Accessible hermetic compressors

- Reciprocating.
- Pressure lubrication controlled by a differential pressostat.
- Integral electronic protection of motor.
- Mounting on antivibration mounts.

■ Shell and tube evaporator

- Direct expansion.
- Copper tubes bundle, steel shell.
- Corrosion resistant baffles.
- Thermal insulation with polyurethane foam.

■ Air-cooled condenser

- "U" condensing coils, copper tubes, aluminium fins.
- propeller fans, direct drive **930 or 730 rpm**.

■ Accessories

- Filter dryers.
- Liquid sight glasses.
- Solenoid valves on liquid line.
- Thermostatic expansion valves.

■ Control and safety

- High and low pressure safety pressostats.
- Oil differential pressostats.
- Chilled water and anti-freeze sensors.
- Evaporator water flow switch.

■ Electrical panel

- Electrical supply 400 V - 3 ph - 50 Hz + Earth ($\pm 5\%$)
- Main safety switch with external handle.
- Remote control transformer.
- Power and control circuits protection.
- Contactors and circuit breakers for compressors and fan motors.

■ MRS1.4 microprocessor electronic module ensuring the following functions :

- Chilled water temperature control.
- Operating parameters control.
- Faults diagnosis.
- Counting and balancing of compressors running times.
- Chilled water temperature display.
- RS485 output for bus connection.

■ Frame and casing

Frame and casing in galvanised steel sheet.

CIATCOOLER LCH

■ Identical to **CIATCOOLER LC** but with a complete integrated hydraulic equipment.

- 1 buffer tank with thermal insulation.
- 1 centrifugal single or twin pump.
- 1 expansion vessel.
- 1 automatic air vent.
- 1 safety valve (4 bars).
- 1 filling hole with valves.
- 1 draining hole with valve.
- 1 set of shut off valves.
- pumps contactors and protections.

CIATCOOLER LCT

Identical to **CIATCOOLER LC** but with recovery water condensers.

- 1 shell and tubes water cooled condenser on each refrigerant circuit with polyurethane foam insulation and antifreeze protection.
- 1 refrigerant liquid receiver per circuit

OPTIONS

■ Low Noise version

■ Anti-vibration equipment

- Anti-vibration mounts
- Evaporator flexible sleeves

■ Pressure gauges

- 1 HP gauge per circuit
- 1 LP gauge per circuit
- 1 oil pressure manometer per compressor

■ Electrical supply

- 230V - 3 ph - 50 Hz + earth

■ Part winding or start / delta starting

■ Compressors phonic insulation

■ 1 side polyurethane painting

■ Polyurethane coating on fins or BLYGOLD POLUAL treatment on coil

■ Remote control box

■ Free contacts relay card kit

■ Condenser coil protection grid

■ Low temperature glycol water (LC-LCT)

■ Wiring numbering for electrical panel

■ Compressor suction isolating valve

■ Condenser flexible sleeves (LCT)

■ Antifreeze protection (LC - LCH)

■ All year round operation (LC - LCH)

■ Brazed plates desuperheaters (LC - LCH) (1 on each refrigerant circuit)

■ Glycol water expansion vessel (LCH)

OPERATING LIMITS IN FULL LOAD

CIATCOOLER	LC - LCH	LCT
Air cooled condenser • Mini. °C • Maxi °C	+ 12* 40	- 15 40
Water cooled condenser • ΔT mini. °C • ΔT maxi °C • Max. hot water outlet °C	NO	5 10 50
Water cooled condenser • ΔT mini. °C • ΔT maxi. °C	Depending of the chilled water outlet See graph below	

* +12 °C standard version
-15 °C with all year around operation

EVAPORATOR LIMITS

The curves below represent the minimum and maximum allowable temperature difference of the glycol or chilled water depending upon the outlet temperature.

WATER GLYCOL COEFFICIENTS

- 30 % concentration of glycol weight
- Freezing point of the solution : -16 °C.

CORRECTION		POSITIVE TEMPERATURE		NEGATIVE TEMPERATURE	
		K	Calculation	K	Calculation
Evaporator	Cooling capacity	0.98	$P_{fc} = P_f \times 0.98$	1.00	See selection table
	Chilled water flow*	1.05	$Q_c = \frac{P_{fc} \times 0.86}{\Delta T} \times 1.05$	1.10	$Q_c = \frac{P_{fc} \times 0.86}{\Delta T} \times 1.10$
	Pressure drop	1.15	$\Delta P_c = \Delta P \times 1.15$	1.30	$\Delta P_c = \Delta P \times 1.30$
	Average temperature °C		12 / 7		See table
Condenser	Cooling capacity	0.97	$P_{fc} = P_f \times 0.97$		
	Chilled water flow*	1.05	$Q_c = \frac{(P_{fc} + P_a) \times 0.86}{\Delta T} \times 1.05$		
	Pressure drop	1.10	$\Delta P_c = \Delta P \times 1.10$		
	Average temperature °C		35 / 40		

* With the correct cooling capacity and compressor absorbed power, calculate the recovered heating capacity and hot water flow.

CIAT Air cooled chillers with propeller fans

ciatcooler **LC**

VERSION WITH HYDRAULIC EQUIPMENT LCH SERIES

The PLUG AND COOL solution with CIATCOOLER LCH

The hydraulic equipment is designed with all the hydraulic circuit components required for a correct operation of the unit :

- Buffer tank.
- Expansion vessel.
- Water flow switch.
- Pressure gauges with shut off valve.
- Antifreeze protection of hydraulic circuit (optional).
- Draining valve.
- Automatic and manual air vent.
- Safety valve.
- Filling hole with valves.
- **Large choice of single or twin pumps (1).**

Control of the assembly.

Easy to install, all the components of hydraulic equipment are optimised, fitted and tested in the factory.

With the hydraulic equipment, **CIATCOOLER LCH** is ready to run and this is very easy to do air conditioning or industrial process.

(1) Pumps are designed to work with closed water circuit. For any others applications, consult us (open water circuit, high head pressure, etc.).

HYDRAULIC CIRCUIT

Options :

- Piping flexible sleeves (MS)
- Antifreeze protection (RE - RB - RT - RV)
- Twin pumps

Pressure levels are calculated following ISO 3744 regulation $L_p = L_w - 10 \log S$, in free field and at 10 meters from the unit.

We remind that the acoustic pressure level is given as an indication and that only the sound power level is comparable and certified.

CIAT Air cooled chillers with propeller fans

ciatcooler **LC**

DIMENSIONS

■ CIATCOOLER LC 2, 3 or 4 compressors, 2 refrigerant circuits

PROPELLER FANS

◁ Condenser air inlet
▲ Condenser air outlet

a : Chilled water inlet
b : Chilled water outlet

LC	1203Z	1400Z	1600Z	1803Z	1804Z	2000Z	2200Z	2400Z	
A	3273	3579	4551	4551	4551	4551	5523	5523	
B	3250	3556	4528	4528	4528	4528	5500	5500	
Nb of compressors	2 or 3			3 or 4					
Weight kg	empty	3150	3450	3610	3810	3850	4100	4810	4930
	in operation	3250	3550	3710	3910	4000	4250	4950	5060

■ CIATCOOLER LCH 2, 3 or 4 compressors, 2 refrigerant circuits

◁ Condenser air inlet
▲ Condenser air outlet

a : Chilled water inlet
b : Chilled water outlet
