

# *Parts and Supplies*

*Expert advice, immediate availability, and fast delivery*

# Experts at your service

*Trane is a full range service solutions provider, with in-house expertise and an extensive service network that is always on call. We provide a comprehensive parts and supplies inventory offering a variety of manufacturers' parts to service any building's HVAC systems and to ensure optimal operation. Turn to Trane Building Services for expert advice on the right parts at the right place at the right time.*

## Parts availability

From precision-crafted original Trane items to generic parts from other suppliers, **Trane carries a wide range of items with 6 500** parts items available in 24 to 48 hours. Whether you are looking for compressors, controls, electrical supplies, HVAC accessories, refrigeration components, indoor air quality filters, chemicals, or tools and tests equipment, we can give you a competitive edge.

Our **inventory levels are closely monitored** so that we can provide the needed part that will keep your system running. We have the right high quality parts to **install, maintain, repair, retrofit, and renovate any HVAC system** and maximize their operation during the lifetime of your building. And because we know our customers' needs, we have developed professional kits for common maintenance and repairs to ensure successful servicing of your installation.

Selecting Trane as your single source supplier for original and generic parts also means you receive all your parts on site with no surprise that something is missing because you will not have ordered your parts from different locations. It also implies you improve your productivity, accelerating your purchasing process and simplifying your invoicing process.

## Expert advice

For more than half a century, Trane has been selling parts and helping our customers get the most from their systems. Because we also are a manufacturer, our parts experts know your HVAC equipment and systems inside and out. Trane designs parts with an understanding, knowledge and expertise on how to best service and maintain the systems after installation.

With **130 sales and service locations** are at your service throughout Europe, the Middle East, Africa and India, Trane offers uniform local support to the highest standards wherever your building is located: engineering expertise, application assistance, services and parts.

Highly qualified Trane professionals provide the right solution for your specific needs, no matter what your system, budget, or brand requirements might be.

Our service team is trained to give the right technical support in the correct selection of suitable components for each service intervention. You have easy access to parts information and receive quick quotations: 80% of our quotation **requests receive an answer within 24 hours.**

In response to customers' needs, our training centers offer modular and progressive courses that cover every aspect of air conditioning and refrigeration and help your technicians improve their servicing skills.

### Fast delivery

We have the infrastructure to find, deliver and even install the required part anywhere in the world with no or a minimum of downtime. Trane is committed to giving you the best value backed with an **advanced logistics infrastructure and a highly efficient distribution network:**

- Main parts center in Genk, Belgium. Strategically located near international carrier hubs, Genk Center enables late order processing with guaranteed next day delivery.
- Three additional major parts distribution centers in Turkey, the United Arab Emirates, and India
- Logistic platforms in Trane factories
- Local parts centers to ensure all your parts needs are fulfilled.

### Easy access to parts information

You want an efficient and reliable source for your HVAC parts, controls and supplies. We are here to answer all your questions.

The 2012 Trane Parts and Supplies catalogue offers a wide variety of parts from renowned manufacturers as well as Trane.

Trane conducted detailed Market research to better answer your needs and requirements. As a result, this new edition was enhanced with:

- A part number index
- A manufacturer reference number index
- Expanded views for all Trane unit ranges
- Professional kits for common maintenance or repairs
- Technical data on scroll compressors and plate exchangers
- New equipment parts
- Parts contact information by country

Trane logistics teams continuously improve processes to offer fast delivery at the right place, at the right time.

With 250 000 parts sent every year, our warehouse staff has a thorough knowledge of the products to ensure prompt service.

With an **on-line inventory management system**, Trane offers **real-time visibility** of inventory levels to all Trane sales offices so that your Trane representative can provide you with accurate parts information. Once you have placed your order, our on-line tracking system also provides reliable shipment status.

**Trane Parts and Supplies Internet site:**  
**<http://doc.trane-eur.com/partscat.nsf>**

- Benefit from a powerful search engine to find the products you need
- Download the Parts and Supplies catalogue
- Use the shopping cart to select specific products as you browse through the catalogue and to help you prepare your quote request.

You may also contact your nearest Trane representative. A Trane service expert will listen to your specifications and provide the needed parts.
