

## Outdoor chillers

Axial fans, scroll compressor  
cooling-only or heat pump models  
50-270 kW\*

# CGAN/CXAN

Tracer™ CH532

CGAN/CXAN

### Customer benefits

- Packaged hydraulic module for easier installation: saving of time
- Low Sound version for sensitive environment: a high level of acoustic comfort
- Wide application flexibility for comfort and process applications to fit the customer's exact requirements

### Main features

- Scroll Compressors
  - Hermetic, high efficiency, low vibration, low sound level
  - Full internal protections, internal temperature and bypass valve
  - Built-in oil level sight glass and oil charging valve
  - Compressor sound attenuating enclosure (super quiet units)
- External sheet metal parts are galvanized and finished with powder paint RAL 9002
- Access panels are quickly removable using a square key
- Disconnect switch/transformer
- Waterflow switch

### Options

- Super quiet operation
- Integrated hydraulic module with or without buffer tank (footprint unchanged)
  - Single or double pump package
  - Copper fins or black epoxy-coated fins
  - Anti-freeze protection on waterside
  - 380, 400 and 415V power voltage
  - Phase reversal protection

- High and low pressure gauges
  - Soft starter up to size 300
  - High static pressure fans
  - Coil protection guards
  - Undersized or oversized water pump for information, contact your local sales office
  - **Factory-mounted LonTalk® serial link**  
Allowing you to:
    - Modify the chilled or hot water temperature setpoint
    - Start or stop the unit
    - Switch from cooling to heating mode
    - Monitor water temperature setpoint, ambient air temperature, chiller operation, fans, water pumps, compressor alarms
    - TraneTracer Summit™ BMS direct compatibility
- LonTalk® is an open communication protocol used on AquaStream<sup>2</sup> and water terminal units.**

### Control

Microprocessor control module with liquid crystal display operator interface controlling and indicating:

- Leaving water temperature
- History of the last 200 defaults
- Cold or hot water reset
- On/off scheduling
- Anti-freeze protection of evaporator, control defrost (CXAN)
- Remote control: dry contact for general fault
- Inputs for external water setpoint reset, auxiliary setpoint, and cooling/heating switch

## General data
