Description

Used Stal SRM 73E - 34G

Used STAL SRM 73E - 34G open drive screw compressor for NH3 (single stage version for economizer operation). The capacities refer to a process with subcooling of the liquid to the intermediate temperature and with no superheating of the suction gas. Furthermore the capacities are based on 2950 rpm, 50 Hz and NH3. The volume ratio is 3,4.

*Why choose for HOSBV? We are not only the largest used refrigeration specialist in Europe, but also, we solely deliver our orders after performing an extensive test and an industrial cleaning. If requested we are happy to arrange your logistics.
