Description

Used Sabroe Chillpac 106 S

Used Sabroe CHILLPAC 106S water-cooled chiller on NH3 (ammonia). Complete with Sabroe SMC106S reciprocating compressor, Leroy Somer electro motor, Sabroe CRRD 80 condenser, Sabroe ESRD 70 evaporator and control cabinet with a Unisab III display. *Capacity based on the following temperatures: -12°C/+33,6 °C.

*All components of this used chiller will be tested on adequate performance, leak free condition (condensing blocks, compressors, fans, control panel and so forth). Choosing HOSBV means buying with warranty. We perform a industrial cleaning. If requested we can arrange your shipment.
