| Pump                       | ✓                                                                                                       |
| Weight in kg.              | 1939 kg                                                                                                 |
| Sizes                      | 4400x1500x2000 mm<br>(LxWxH)                                                                            |
| Compressor(s) type & model | x2 Copeland ZP235KCE-TWD-522 & x2 Copeland ZP182KPE-TFD-455                                             |
| Display                    | Carel pGD1                                                                                              |
| Number of fans             | 3                                                                                                       |
| Fan specifications         | 50 Hz - 880/670 RPM - 1,9/1,2 kW                                                                        |
| Remarks                    | Y.o.b. 2019                                                                                             |
| Remarks                    | Capacity is based on:<br>water temperature of +40/+45 at an outside temperature of +7°C / 6°C wet bulb. |
| Stock                      | 1                                                                                                       |

## Description

### Used Aermec NRP 0750 A4

Used Aermec NRP 0750 A4 heat pump on Freon type R410A. Complete with x2 Copeland ZP235KCE-TWD-522 & x2 Copeland ZP182KPE-TFD-455 scroll compressors, condenser with 3 Ebm-papst A6D800-AD01-01 fans: 50 Hz - 880/670 RPM - 1,9/1,2 kW- diameter 800 mm, x3 brazed heat exchangers, x2 liquid receivers, x2 Lowara NSCE 50-125/40 NRL water pumps, x2 Frigo Mec 10/S-SP-31-ODS 35 oil separators, x2 Varem Extravarem LR expansion vessels and a control cabinet with a Carel pGD1 controller.

Please notice that the capacity is based on the following conditions: Water temperature of +40/+45 at an outside temperature of +7°C and a wet bulb temperature of 6°C.

\*All components of this used chiller will be tested on good working, leak free condition (condensing blocks), compressors, fans, control panel, etcetera). Choosing HOSBV means buying with warranty. We perform a industrial cleaning and rust spots will be covered. Also, we can arrange your shipment.
